

Nervous Alibi

The Outfield

Cherry, where you've been since 9 this mornin'?
Give me all the names who saw you there
But if they can't remember, I know that you'll surrender
Another nervous alibi
Cherry, what's that game you think you're playin'?
Don't you know I hate those clothes you wear
For I've seen men undress you and with their eyes caress you

Another nervous alibi
Cherry, name the day and I'll be waitin'
Give me just one chance to show I care
I know if we're together it can go on forever
Another nervous alibi
