Jagged Hearts

Pam Tillis

You say she wounded your heart
And it's too tender to touch
Oh baby, I know
Words can be sharper than knives
And they can cut just as muchOh baby, I know
Just like you, I've cried alone in the dark
Know how it feels when your love's ripped apartJagged hearts are so hard to heal I know
Feels like it's gonna go on like this forever
Jagged hearts can mend, scars can heal
And then it's so amazing when jagged hearts fit togetherYou feel the ghost of her kiss lingering on your lips
Oh baby, I know, come lay your troubles to rest
And let me help you forget 'cause baby I know
Know what it's like when you need to be loved
But it's hard to feel when you're feelin' so goodJagged hearts are so hard to heal I know
Feels like it's gonna go on like this forever
Jagged hearts can mend, scars can heal
And then it's so amazing when jagged hearts fit togetherYou can't even tell where we were broken
When we hold each other close
When the pieces fit, you know it'sJagged hearts are so hard to heal I know
Feels like it's gonna go on like this forever
Jagged hearts can mend scars can heal
And then it's so amazing when jagged hearts fit together
Together, togetherJagged hearts are so hard to heal I know
Feels like it's gonna go on like this forever
Jagged hearts can mend, scars can heal
And then it's so amazing when jagged hearts fit together
