Final Solution

Cage

[Music: Dave Garcia]
[Lyrics: Sean Peck]Here we are asking again where is GOD ?
It's breaking us down we're feeling so lost
In solitude why don't you explore a way that is new that shakes you to the core.A resonating voice from afar
Listen very close to the stars and then never again will you fall.
What does it mean ?
How does it know?
It's the final solution.
Just when you think there is no place to go it's the final solution.Clouded are minds of men
Where is GOD ?
Some say we face diminishing odds
Celestial mechanics will restore
Human destiny will be reborn.A resonating voice from afar
Listen very close to the stars and then never again will you fall.
What does it mean ?
How does it know?
It's the final solution.
Just when you think there is no place to go it's the final solution.The secret of the zodiac lies within.
Living a life of sin where is GOD ?
Darkest are things before the dawn.
The resurrection of your spirit is near
Feel its' evolution while you hear...A resonating voice from afar
Listen very close to the stars and then never again will you fall.
What does it mean ?
How does it know?
It's the final solution.
Just when you think there is no place to go it's the final solution.
