Secrets And Lies

Institute

Transformation, we become someone else
Dislocation, as we get so far from ourselves
My condition's getting worse I can't do without
Addiction is the lust that won't let you out
All your secrets and your lies
Walk fast out of burning buildings
Kill youth with easy listening
You gotta keep terror at a healthy distance
It's fine from time to time
Conversations are something of the past
Investigations of everything that holds us back
Your contrition is deserved, you'd like to disappear
Find a new home for your salty tears
All your secrets and your lies
Walk fast out of burning buildings
Kill youth with easy listening
You gotta keep terror at a healthy distance
Godspeed to sustain illusions
It's fine from time to time
It's fine was the land mines land mines
Walk fast out of burning buildings
Kill youth with easy listening
Godspeed to sustain illusions
Godspeed to sustain illusions
Walk fast, walk fast
Gotta keep terror at a healthy distance
Godspeed
You gotta keep terror at a healthy distance
