

# It's Not Ok

[\*\*Robert Ellis\*\*](#)

It's not okay,  
The way we look at one another  
It's not okay,  
But our love has to stay undercover  
It's not okay,  
Why did I ever fall?  
It's not okay,  
It's not okay at allMaybe I'm destined to repeat myself forever  
Don't you think I'd learn from my mistakes?  
Oh, it's not okay  
That I don't even try to hide it  
I just don't care anymore  
It's not okay,  
But I can tough it out,  
Just as long as you can take me,  
Far away,  
She won't figure out  
Why I even so different lately  
How pray, I could live without  
Another taste of what you gave me  
But it's not okayIt's not okay,  
When I close my eyes you appear  
It's not okay,  
But I fantasise about holding you near  
It's not okay  
That I hide in the words of a song  
No, no, no, no, no, no  
It's not okay,  
But I can tough it out,  
Just as long as you can take me,  
Far away,  
She won't figure out  
Why I've been so different lately  
How pray I could live without  
Another taste of what you gave me  
But it's not okay
