Baby I'm Amazed

Raghav

Keep it on the low, baby
When your day is over
No one needs to know
How you get it or what you need
She don't know it
But I saw it the minute she walked through that door
Tryin' so hard not to show it, no
But I'm feelin' it every night when she gets home
See, baby I'm amazed by you
How could you try to play it cool for so long?
'Cause don't you know I see through you?
Let me take you to a place, where you belong right here, right now
You don't need to say a word, yeah, I know
I see the way they're working ya to the bone
Tonight we're ought to sit back relax
And let me rub your back, take it slow
You don't need to say a word, yeah, I know
I see the way they're working ya to the bone
Tonight we're ought to sit back relax
And let me rub your back, take it slow
Take it slow
You, you gotta relax
I put that stress out of your body into mine
So just lay back
I'm gonna fill you up with brand new life tonight
Baby, I'm amazed by you
How could you try to play it cool for so long?
Don't you know I see through you?
Let me take you to a place where you belong
We'll never go wrong, baby
You don't need to say a word, yeah, I know
I see the way they're working ya to the bone
Tonight we're ought to sit back relax
And let me rub your back, take it slow
You don't need to say a word, yeah, I know
I see the way they're working ya to the bone
Tonight we're ought to sit back relax
And let me rub your back, take it slow
Take it slow

Keep it on the low, baby
When your day is over
No one needs to know
How you get it or what you need
Keep it on the low, baby
When your day is over
No one needs to know
How you get it or what you need
You don't need to say a word, yeah, I know
I see the way they're working ya to the bone
Tonight we're ought sit back relax
And let me rub your back, take it slow
You don't need to say a word, yeah, I know
I see the way they're working ya to the bone
Tonight we're ought sit back relax
And let me rub your back, take it slow
She don't know it
But I saw it the minute she walked through that door
