Cave

Celebrity

This one is for the young and the old.
This one is for you all to have as your own.
Downtown's another year older.
And where have the kennedy's gone to now?
This one is for you all, and you let it go.
I'm ready to cave, but i'm willing to live.
I wanna look over what is not and what is.
And i'll lift you up before i give in.
I need to feel closer now than i've ever been.
This one comes from below and above.
And it's given to us all, but i've seen enough.
