

# Not That Far Away

## Thezspeaker

They're playin' guitars with stars in their eyes on Broadway  
They're just payin' their dues and waitin' for news on a big break  
I wish you were here 'cause sometimes I get lonely  
Guess I'm not the only new girl in town  
Momma, I promise I'll be alright  
I'll call to say I love you every night  
I'm just tryin' to write the story of my life  
You know all about this dream I've gotta chase  
I get a little closer everyday

California is not that far away, I'm not that far away  
So many new faces and beautiful places in this town  
I'm learnin' the ropes on this crazy road, I'm goin' down  
I'm makin' my way, no one said that it'd be easy  
Trust me, believe me, I'm where I belong  
Momma, I promise I'll be alright  
I'll call to say I love you every night  
I'm just tryin' to write the story my life  
You know all about this dream I've gotta chase  
I get a little closer everyday  
California is not that far away, I'm not that far away  
We're miles apart, but you're in my heart  
I keep you with me everywhere I go  
Momma, I promise I'll be alright  
I'll call to say I love you every night  
I'm just tryin' to write the story my life  
You know all about this dream I've gotta chase  
I get a little closer everyday  
California is not that far away, I'm not that far away  
I'm not that far away, I'm not that far away
