

# Young & Afraid (Robert DeLong Remix)

## The Moth & The Flame

Think back on what you did  
Hey, bug all the new kids  
A new wave of exclusive  
As if there's something new kid  
With a patient performer  
The kid in the corner  
We were just tuning you out  
We are young and unafraid  
We are young and unafraidAllow me to weigh in  
On this conversation  
Here's your invitation  
To chew someone else's heel  
Your concessions are useless  
Oh, feel free to defuse this  
Now you'll have to excuse us  
We are moving onIt's the rats in the basement  
Trying our patience  
We are just tuning you out  
We are young and unafraid  
We are young and unafraidDid you think we couldn't feel you there?  
Did you think we couldn't feel you there?  
Did you think we couldn't hear you there?  
Did you think we couldn't hear you there?
