Another Way

Alexia

Love will find another way
No one more will be blind
Love will find another way
Your wayEvery day can be the lowest
Or the one that takes you to the top
You will never know whats right or wrong
Oh, oh, ohIn your life, you'll feel confusion
Youre afraid for all this mystery
Never let your mind reveal your songLove will find another way
No one more will be blind
Love will find another way
Your wayLove will find another way
Love will find another way
Love will find another way
Your wayTell me, why we do keep fighting?
Some of us could rest and get it right
Learn to love yourself and face the crowdLove will find another way
No one more will be blind
Love will find another way
Your wayLove will find another way
Love will find another way
Love will find another way
Your wayLove will find another way
No one more will be blind
Love will find another way
Your wayLove will find another way
Love will find another way
Love will find another way
Your way
