I Want It Back

Shawn Colvin

I lost the thread, I lost the map It's not a feeling, it's a fact I had it once, I was on track

Why won't it stay? I want it backI see you there in that magazine

You're looking smart, you sound supreme

You got such lip, you know the street

You been around, you took some heatYou mighta killed, you might be cruel

You might be stupid but we love you

You're in the paper, you're in the air

You're in my head, you're everywhereI want it back

I want it back

I want it back

I want it backYou're so extreme, you're feast or famine

You got one mission, just like a Salmon

You said in life, mistakes are many

How come you never admit to any? Are you for real or are you bluffing?

You really get me, famous for nothing

And every morning you got a name

In a world where people all look the sameI want it back

I want it back

I want it back

I want it backI can't give love, I don't know how

I write in code so you won't know

I was on drugs, I took a nap

I didn't mean it, I want it backI dreamed again of paradise

I floated steady, it felt so nice

To sell your soul, just think of that

I'm halfway there, I want it backI want it back

I want it back

I want it back
