And We Fell

Lucero

And we fell
Fell around the world.
A drunken mess
with nothing left,
but the other ones
still holding on
To all those dreams.
We didn't know were done
And we fell
'cross the state,
Never gave 'em much
Never giving' up.
And we'd raise a glass,
and we will today
to all those times
it never went our way.
And we fell through the town,
Held each other up,
never staying down,
and we'd take a drink
when it got too much.
And im still not sure
Just what became of us.
