

Got to Get Better in a Little While

Derek and the Dominos

Don't you know what's wrong with me?
I'm seeing things I don't want to see.
Sniffing things that ain't no good for me.
I'm going down fast, won't you say a prayer for me?[Chorus:]
It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while. The sun's got to shine on my guitar someday.
Revolution all across the land.
Just like Sly, you got to take a stand.
Please don't hurt nobody, don't knock them down;
Give them a helping hand to get off the ground.[Chorus] Still one thing that you can do;
Fall down on your knees and pray.
I know the Lord's gonna answer you.
Don't do it tomorrow, do it today.[Chorus]
