

# Little Jeannie

## Blue System

When you take my love  
Baby, how I cry for you  
Love will grow, things are getting tough  
Where did my tomorrow go? Believe it, babe or not  
Never ever let you go  
When you're tearing apart  
Secret lover let me know, let me know I miss you so, little Jeannie  
I can feel your heart, can you feel it?  
Never tear apart, little Jeannie  
Feel my heart is true I miss you so, little Jeannie, baby, don't go  
You're too hot to hold my love  
Don't stop, I'll never ever give you up [Incomprehensible]  
When I sleep alone  
Secret lover, heal my heart  
Face the dream, make you heart of stone  
I'm a King without a crown  
Believe it, babe or not  
Never ever let you go  
When you're tearing apart  
Secret lover let me know, let me know I miss you so, little Jeannie  
I can feel your heart, can you feel it?  
Never tear apart, little Jeannie  
Feel my heart is true I miss you so, little Jeannie, baby, don't go  
You're too hot to hold my love  
Don't stop, I'll never ever give you up I miss you so, little Jeannie  
I can feel your heart, can you feel it?  
Never tear apart, little Jeannie  
Feel my heart is true I miss you so, little Jeannie, baby, don't go  
You're too hot to hold my love, don't stop
