

# Leave me now

## Chicago

Leave me now, don't hang around  
Just close the door and leave the key  
Under the plant outside  
The one you bought me years ago  
Look how it's grown Go away, you cannot stay here  
Take your heart off of your sleeve  
And let me catch my breath  
I hope you haven't left a thing It's hard enough  
To be here without your love  
It's hard enough Move along, you don't belong here  
Wipe yourself off of my floor  
And let me get some sleep  
I cannot keep you in my heart It's hard enough  
To be here without your  
To be here without your  
To be here without your love It's hard enough  
It's hard enough Leave me now, don't hang around  
Leave me now, don't hang around
