Into Sunshine (feat. Ynnox)

Stelartronic

There were times I let myself down

There were times the beat of my heart was fading

Too blind to leave this ghost town

letting go was king

There's no going back

leaving it all behind for good

There's no going back

Whenever I can feel this shadow

creeping in

I close my eyes and cast a spell on it

There's not a single chance I let this

dragon win

I just turn my back and start to stare

into

sunshine

There were times I tried to give up

There were times I denied the man in the mirror

To take the wheel and rise up

above it all

There's no going back

I'm leaving it all behind for good

There's no going back

no going back

Whenever I can feel this shadow

creeping in

I close my eyes and cast a spell on it

There's not a single chance I let this

dragon win

I just turn my back and start to stare

into

sunshine

There were times I let myself down

There were times the beat of my heart was fading

Too blind to leave this ghost town

letting go was king
