

Push

Marianas Trench

You never really wanted it
You'll settle for a bit of it
It started with a big bang
(Coming over everything)
And now it's coming back again
Hey, don't you feel it now
My shiny side down
Hey burning brighter still
And you're getting sick
And you're feeling it
It'll wear you down and wear you down
You chase it, breathing in and out and in and out
They push you up against the wall, against the wall
You didn't think you'd feel it all
But you were wrong about it, push
It started with a handgun loaded with excuses
We started faking it
(And then we started breaking it)
All the pieces used to fit
Using like it's going out of style
(Maybe just a little while)
This'll be the last time
(Every time's a last time)
Hey, don't you feel it now?
My shiny side down
Hey burning brighter still
And you're getting stuck
And you fucked it up
It'll wear you down and wear you down
You chase it, breathing in and out and in and out
They'll push you up against the wall, against the wall
You didn't think you'd feel it all
But you were wrong about it, push
I regretted it, I regret a lot of things
I regretted it, I regret a lot of things
And you're feeling it
It'll wear you down and wear you down
You chase it, breathing in and out and in and out
They'll push you up against the wall, against the wall

You didn't think you'd feel it all
But you were wrong about it
And you're feeling it
It'll wear you down and wear you down
You chase it, breathing in and out and in and out
They'll push you up against the wall, against the wall
You didn't think you'd feel it all
But you were wrong about it, push
