How We Used to Be

Nexx Chapter

Lyrics ;
I told you once that you won't never forget me
I keep finding the one .. someone like you and me
Does your memory serve correctly
Are you supressing it all
Baby we weren't meant to be but i'ma challenge fate at any costHow did he do it
Did he get down on one knee
Did you cry, did you smile
Did you think of me
I heard he's ..
He's working ..
.. make you speak
I'm calling from a pay phoneCan we spend some time together
I' m not asking for much
Keep him ..
I'm just asking for love
And I wish that you could see
I just want a taste of how we used to beAlways avoid me girl you fear temptation
Got a .. too many dalmation
I know what I mean to you
You would be lost in translation
So thinking this could never work cos a figment of your imagination
But you wanna see this through
My love what are you trying to prove
That I don't have a hold on you
I don't know if you notice but I haven't held you in years
.. is my profession
Remember telling me you fell in love at first sight
Now i'm all in on this last impression
Can you fall one last timeCan we spend some time together
I' m not asking for much
Keep him ..
I'm just asking for love
And I wish that you could see
I just want a taste of how we used to beI can't live another day without cha
See my calendar is full but nothing seems to matter
I am just up all night trynna to get you faster
Only hope I've got, maybe I could ask herI can't live another day without cha
See my calendar is full but nothing seems to matter

I am just up all night trynna to get you faster
Only hope I've got , maybe I could ask her
