Be Less Rude

Frightened Rabbit

Oh this is what we need
A line in the sand
I would cross to here
Before the tide comes in
And you should be less rude
You don't know what it might do for you
I'd be less rude to you
We might just get along too
You sit on your high horse
And you spout your high horse shit
I'm afraid you've been misled

Your high horse in fact's a pony
Oh you should be less rude
You don't know what it might do for you
I'd be less rude to you
We might just get along too
I'll take that back now take that back
You should take that back, back, back
Oh and you should be less rude
You don't know what it might do for you
I'd be less rude to you
We might just get along too.
