Another Story

Olive tree

These are just flames
Burning in your fireplace
I hear your voice and it seems
As if it was all a dream
I wish it was all a dreamI see a world
A world turning in on itself
Are we just like
Hungry wolves howling in the night
I don't want no music tonightCan we go on like it once wasEvery time I hear another story
Oh the poor boy lost his head
Everybody feels a little crazy
But we go on living with it
Yeah they go on living with itThese are just flames
Burning in your fireplace
I hear your voice and it seems
As if it was all a dream
I wish it was all a dreamCan we go on like it once was
Can we go on like it once wasEvery time I hear another story
Oh the poor boy lost his head
Everybody feels a little crazy
But we go on living with it
Yeah they go on living with itI'll tell you one thing
We ain't gonna change much
The sun still rises
Even with the painI'll tell you one thing
We ain't gonna change love
The sun still rises
Even through the rainCan we go on like it once was
Can we go on like it once wasEverybody feels a little crazy
Like it once was
Everybody feels a little crazy
Like it once wasCan we go on like it once was
