Down to This

Pat Cooper

Didn't think I'd ever see this day,
We've never talked to each other this way,
Where'd we go wrong? Has our love really gone, down the drain?

Is it even worth trying to save?
If it's coming down to this, we should just admit that it's over, it's over
When it gets tough, you just give up
Is what we had not enough?
Go ahead and quit, it's me you're gonna miss
I don't even want a goodbye kiss
If it's coming, oh if it's coming, if it's coming down to this

What ever happened to the girl I fell for?
Seems she ain't around anymore
Did she run off? Is it my fault? Am I the one to blame?

Is it even worth trying to save?
If it's coming down to this, we should just admit that it's over, it's over
When it gets tough, you just give up
Is what we had not enough?
Go ahead and quit, it's me you're gonna miss
I don't even want a goodbye kiss
If it's coming, oh if it's coming, if it's coming down to this

Shoulda seen it coming from a mile away,
No ones forcing you to stay,
You can forget we ever met,
If it's coming, if it's coming, down to this, we should just admit it's over
When it got tough, you just gave up
Is what we had not enough?
Go ahead and quit, it's me you're gonna miss
I don't even want a goodbye kiss
If it's coming, girl if it's coming, I'm gonna hit the ground running, keep on runnin, if it's coming, if it's coming down to this
If it's coming down to this
