

What Kind of Fool? (Heard All That Before)

Kylie Minogue

What kind of fool do you take me for?
But I heard all of that before I don't wanna hear your reasons
I'm not giving you another chance
In my kindness you saw weakness
Time for me to make a stand Whenever I hear your music
Singing the same old tune
You're so sure that I can't refuse it
But don't you speak to soon What kind of fool do you take me for?
Don't wanna see your face no more
You can say you'll be true, I can trust in you
But I heard all of that before Remember how I used to need you
But baby, you were never there
There was a time when I believed you
But now, I know, you didn't care Don't wanna hear your hard-luck story
It's the same time after time
It's too late to say you're sorry
You'll never change wrong to right What kind of fool do you take me for?
Don't wanna see your face no more
You can say you'll be true, I can trust in you
But I heard all of that before What kind of fool do you take me for?
No one on earth could give you more
You would change white to black
If I took you back
But I heard all of that before What kind of fool, what kind of fool
Believed you, believed you
Believed you, believed you Whenever I hear your music
Singing the same old tune
You're so sure that I can't refuse it
But don't you speak to soon What kind of fool do you take me for?
Don't wanna see your face no more
You can say you'll be true, I can trust in you
But I heard all of that before What kind of fool do you take me for?
No one on earth could give you more
You would change white to black
If I took you back
But I heard all of that before What kind of fool do you take me for?
Don't wanna see your face no more
You can say you'll be true, I can trust in you
But I heard all of that before What kind of fool do you take me for?
