

# Forgotten Works

## Klaxons

The tomb crew bring sugar oil  
We'll meet at the mirrored statue  
Margaret, my girl, standing on air  
That is my name, that is my name  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
The tomb crew bring sugar oil  
We'll meet at the mirrored statue  
Margaret, my girl, standing on air  
That is my name, that is my name  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
[Incomprehensible]  
[Incomprehensible]  
Tigers in boil  
Forgotten works  
Tigers in boil  
Forgotten works  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen  
Light the bridges with the lantern  
You know something's going to happen
