

# Against the Grain

## Sparrow and the Workshop

I have tried but it's hard to fight it  
I can't just watch as it falls apart  
If we could break the mold  
Make it in from the cold  
Lose your mind, never lose your heart  
And I don't mind working hard for it  
I'll bend the hands 'til the space appears  
I'll move the pieces until we all fit  
From near to far and from far to near  
And I know  
That I'm going against the grain  
And I know this makes no sense  
The changes I've tried to make  
They make no difference  
But I know that I'll try again  
Although it's so hard  
Hard  
Hard  
Given time it'll finally focus  
And in a moment that's been and gone  
And in the afterglow  
From my head to my soul  
I can see all I have ignored  
And I don't mind working hard for it  
I'll bend the hands 'til the space appears  
I'll move the pieces until we all fit  
From near to far and from far to near  
And I know  
That I'm going against the grain  
And I know this makes no sense  
The changes I've tried to make  
They make no difference  
But I know that I'll try again  
Although it's so hard  
Hard  
Hard  
If life's so short then we're wasting time  
Love is the last thing on our minds

It's so simple but so hard to see  
And you are not alone in this  
Sense of loss and loneliness  
Take your shoes off run towards the sea  
And I know  
That I'm going against the grain  
And I know this makes no sense  
The changes I've tried to make  
They make no difference  
But I know that I'll try again  
Although it's so hard  
Hard  
Hard  
I know the sun will keep on shining down  
As long as you're around
