

Now Mary

The White Stripes

Now Mary
can't you find a way
to bring me down? I'm so sorry
that I had to go
and let you down Knowing you I'll think
things are gonna be fine
but then again you'll
probably change your mind I'm sorry mary but
being your mate
means trying to find something
that you aren't going to hate What a season
to be beautiful
without a reason
