

Highway (Under Construction)

Gorillaz

Well, I'm building a highway back,
Back to the heart of things
No love left to walk back,
Back to the heart of things
So, I'm building above and back
All our city gone red
When I get a call from you,
I'm gonna bid it all true, true
It's so cold when I say goodbye
People holding a meaning, why?
But you never let the car get in
Howling on the sound of swim
Did you want a wind and a
sail it would take a boat
All of infinitive rope
Say what you want, don't bring
Anything back to me
