Beast On The Mic

Cowboy Troy

I'm a beast on the mic, can't get no satisfaction
Step aside, 'cause it's time for some action
I'm a hick rhyme sayer with a kung fu grip
I get the job done instead of talkin' 'bout it
Early in the mornin', I'm up and I'm out
Hopin' one day my album goes platinum
Rockin' that mic so viciously
Deliciously, not maliciously
When atmospheric pressure and vapor pressure converge
There's a party surge, so I must emerge
Get the people hyped and keep going nonstop
Knock the party off the meter when the bass line drops
I'm a beast on the mic, can't get no satisfaction
Step aside, 'cause it's time for some action
I'm a hick rhyme sayer with a kung fu grip
I get the job done instead of talkin' 'bout it
Ichi-nichi-ju, Ichi-nichi-ju
Kuroi Amerikajin yoru
The last of the Brohicans is speakin'
The one that you turn to each and every weekend
Risin', peakin' while the bump is beatin'
Don't turn back, no retreatin'
You can see my vision, you can feel my force
Time to hit the trail, boy, the mic is my horse
I tantalize and tickle your tympanic with my English
Smile as you listen to the ruckus
As I bring this mic, can't get no satisfaction
Step aside, 'cause it's time for some action
I'm a hick rhyme sayer with a kung fu grip
I get the job done instead of talkin' 'bout it
Ichi-nichi-ju, Ichi-nichi-ju
Kuroi Amerikajin yoru
All day long, all day long
Cowboy Troy bringin' you this song
All day long, all day long
Cowboy Troy bringin' you this song
I'm comin' with the best and fresh from out west
Bus driver takin' you to school to pass the test
See, I'm lyrically hypnotic, at times even psychotic

Neurotic, bionic and it may leave you catatonic
I'm a beast on the mic, can't get no satisfaction
Step aside, 'cause it's time for some action
I'm a hick rhyme sayer with a kung fu grip
I get the job done instead of talkin' 'bout it
I'm a beast on the mic, can't get no satisfaction
Step aside, 'cause it's time for some action
I'm a hick rhyme sayer with a kung fu grip
I get the job done instead of talkin' 'bout it
