

# Dipshit

## Rufio

He said you want my heart in yours for some popularity,  
She said I want you by my side to impress all above,  
but what am I?  
but it's true love.  
Use your mind you dipshit.  
I'm wondering why not just let me live,  
on my own. Wrong,  
on my own,  
what they said is wrong,  
don't struggle; waste your energy, they're wrong.  
What they said is wrong,  
It's all jealousy. and this silence calms my ears.  
Over and over I hear your voice calling out my name.  
You're adding questions to nothing.  
You try to figure out our lives,  
it's us you want to live.  
Hold your tongue you dipshit.  
I'm wondering why not just let me live,  
on my own,  
on my own. Wrong,  
what they said is wrong,  
don't struggle; waste your energy, they're wrong.  
and this silence calms my ears  
What they said is wrong,  
You're suffering is running through. And asking for love isn't too much,  
There are changes in your face.  
get a life and get another one to talk about  
Wrong, don't struggle; waste your energy they're wrong.  
what they said is wrong,  
What they said is wrong.  
And this silence kills my ears
