

Anvil (Bandstand Busking)

The Irrepressibles

When you come and find me I'll be lost in reason

You'll be like the apple of it

You'll be like the apple of it

You'll be like the apple of my eye

When you come and find me I'll be lost in reason

You'll be like the apple of it

You'll be like the apple of it

You'll be like the apple of my eye

When you were my angel I was like you're anvil

When you were my angel I was like you're anvil

Please let me down now

Please let me down now

When you come and find me I'll be lost in reason

You'll be like the apple of it

You'll be like the apple of it

You'll be like the apple of my eye

When you come and find me I'll be lost in reason

You'll be like the apple of it

You'll be like the apple of it

You'll be like the apple of my eye

When you were my angel I was like you're anvil

When you were my angel I was like you're anvil

Please let me down now

Please let me down now

Rain, raining away, it's so hard

Please let me down now
