I Got You Babe

Bahamas

I sang loud
My voice cut through the crowd
As if I was anybody
That might have something to sayStanding tall, I seemed to know it all
But the only thing I know is that
I've never known someone like you
I'm gonna figure out how it isI got you, I got you, babe
I held you and I lost youTime stood still
And I had my fill
Of all the things we did
And all the things we could have doneLooking back, would you cut me some slack?
For all the times I left you
When I should have stayed right by your side
I'm gonna figure out how it isI got you, I got you, babe
I held you and I lost you
