

# Battle Axe

## Magic Elf

I want to sleep if you are awake  
Still making believe that you aren't at all crazy  
And if you don't believe I think you should  
You make me so proud!  
Still you love to think you have always been this way...but you're all wrong.  
And you only sleep when you've lost cause  
Well I still believe that the cause was always me.

And if you don't believe I think you should  
You make so proud!  
Still you love to think you have always been this way  
Well I'd love to think you will someday feel the same  
And you love to think it will always...always...  
...always...  
If you still believe it will always be this way...well you're all wrong.  
Yes you are, insane...
