# Follow a Star

## Norman Wisdom

When I first saw you, I couldn't ignore you
Your eyes were so starry and full of that faraway look

I tried not to plan it, then wondered if can it
Be stealing, is my heart a crook?

But findings is keepings so I'm holding on
To a love that has taught me what's right and what's wrong

I'll follow a star
But I'm in heaven already
Now I'm going steady with you

For better or worse
You will be my universe
My life will revolve around you

I'll try to aspire to all the things you require
In the man of your dream
I know I'm not the best suitor
But your zest as a tutor is truly supreme

I'll take my degree
And then I'll study much harder
To prove that my ardour is true

I'll follow a star
If the star that I follow
Is you
