Significant Other (2016 Remaster)

Steven Wilson

Pullin' back from the precipice
Feel so small now, stars shine bright above
Don't know why
Receive a better life for a song
Can't but try, other leads applyLookin' up at tragic rush on underground
Birds will turn and fly
Don't know why
Passin' through the day, only child
Breathe a sigh, other leads applyRaining all day, trying to reach you
Feel so helpless, can't stop counting time (but in)
Don't know why, hands (something) stealin' my heart
Graceful dives', other leads apply* (rain down from the sky)
