

# Hopeless

## Future Bible Heroes

You've been tearing out your hair  
And I've been drinking  
Listening to music in the dark  
And I've been keeping to myself  
And you've been slinking  
All around the trailer park

There's no use even trying  
Because it's hopeless  
All of our dreams are dying of overdoses  
All of our plans are lying in ten-car road wrecks  
There's just no point in crying  
You know it's hopeless

You look at strangers like a kid in a candy store  
I've been leaving on every train  
And you don't keep a diary anymore  
And I come home feeling no pain

Don't let me rain on your parade  
Don't get your hair gray  
It's just another wasted year  
Nothing you can't forget in hours at the raceway  
Nothing that can't be drowned in beer
