

Cry Baby

Cheap Trick

Cry, cry baby
Cry baby ooo
Cry baby Put yourself around me babe, never let me go
Wrap yourself around me, take it easy, make it slow
Come a little closer, is there somethin' I should know?
What goes on inside your head, I'll never, never know
But now if good is good and bad is bad
If bad is good and good is bad then you're the best I've ever had Baby, maybe you just never tried
To be in love so
Takin' and fakin' and breakin'
And makin' me cry baby
Cry baby ooo Put your hands around me babe, never, never let me go
What goes on inside my head, you'll never, never know
Where does all the precious time go? Maybe if you didn't mind so Baby, baby you just never tried
I'm in love, so
Takin' it, just can't believe
You're makin' me cry baby Cry baby
Cry, cry baby
Cry, cry baby ooo
Cry, cry baby
Ooo baby
Cry, cry baby
Ooo baby
Cry, cry baby
Ooo
You make me so lonely
I'm feelin' so lonely
Ooo
