

# House of Suffering

## Bad Brains

In this house of suffering  
I gotta let some joy in  
I hear that freedom will win Oh, where, oh, where can Jah love be now?  
My dear, it's here in the underground  
Inside the hearts of your own children In this house of suffering  
I spiritual logic grinnin'  
One way grace is my friend  
To conquer doom and sin And all the nations lying  
While all our people crying  
And they stop at nothing  
Nothing, nothing In this house of suffering  
Don't want but just one thing  
Got to have my origin  
In this house of suffering
