

Off The Heezy

Tyrese

Baby said, it's goin' on tonight
We 'bout to do it real big, yo
Off the heezy
You off the heezy, the way you walk
I'm tryin' to sample that tonight
Off the heezy, we can do it real big, baby
Would that be alright
Off the heezy, if you was my boo
You can do whatever you want to
I don't wanna try to hold you down
I just wanna get it started
All night long it's been hard for me to pay attention
To what me and my peoples are doin', eh
And it's not often that I'm in this position
Though I've seen a lot, but not this hot
Girl, you've got me crazy
You off the heezy, the way you walk
I'm tryin' to sample that tonight
Off the heezy, we can do it real big, baby
Would that be alright
Off the heezy, if you was my boo
You can do whatever you want to
I don't wanna try to hold you down
I just wanna get it started
Usually I don't pay no mind to girls this way
But honey ain't your average little mommy
Just tryin' to find the right thing to say
Something tells me that if you and I got it poppin'
Girl, it won't be no stoppin' it'll be one thing after the other
Where've you been, when I gotta do to see you again
Are the first words that came into my mind
I never met nobody as bad as you
Who ain't got no attitude
That's what makes the situation, for sure
It's that Cat from the South
Everybody just can't stop talkin' about
Lips stay poked out 'cause I cannot lose
Every record I make, I got something to prove
It's a man's world, so don't even trip real big

Ya'll know how I do this shit
And I'm the truth like a California bag of trees
From ATL to watts nigga, off the heezy
You off the heezy, the way you walk
I'm tryin' to sample that tonight
Off the heezy, we can do it real big, baby
Would that be alright
Off the heezy, if you was my boo
You can do whatever you want to
I don't wanna try to hold you down
I just wanna get it started
You off the heezy, the way you walk
I'm tryin' to sample that tonight
Off the heezy, we can do it real big, baby
Would that be alright
Off the heezy, if you was my boo
You can do whatever you want to
I don't wanna try to hold you down
I just wanna get it started
