

# Didn't Know You

Karmin

You said I had it all  
You said it took no brains  
You promised all the stars  
And then you took the reins  
I watched it all come down  
You set my dreams ablaze  
I saw the meteor  
Coming from far away Every word you say is made to please  
Oh, I better watch out  
Everyone's got faces no one sees Well, I guess I didn't know you at all, hey  
No, no, I guess I didn't know you at all, hey  
Oh, before we fly we have to fall  
I guess I didn't know you at all I made it out alive  
A couple bruises fading  
And so I cover up  
And wear a smiley face  
I had to sell my car  
And gather up my things  
I heard you're on to the next  
So they can kiss your rings Everyone's got faces no one sees  
Oh, they better watch out  
Every word you say is made to please Well, I guess I didn't know you at all, hey  
No, no, I guess I didn't know you at all, hey  
Oh, before we fly we have to fall  
I guess I didn't know you at all Like a bird of the prey  
Out of nowhere you came  
Do you always get your way  
Like a bird of the prey  
Out of nowhere you came  
Do you always, do you always get your way Every word you say is made to please  
I better watch out  
Everyone's got faces no one sees I guess I didn't know you at all, hey  
No, no, I guess I didn't know you at all, hey  
Oh, before we fly we have to fall  
I guess I didn't know you at all  
No, no, I guess I didn't know you at all  
(Like a bird of the prey)  
I guess I didn't know you at all  
(Out of nowhere you came)

Before we fly we have to fall  
I guess I didn't know you at all  
(Do you always get your way) Like a bird of the prey  
Out of nowhere you came  
Do you always get your way  
Like a bird of the prey  
Out of nowhere you came  
Do you always, do you always get your way
