

This Is Not the End

Agent Orange

This is not the end, it's just another song
It's only one opinion, right or wrong
Open up your heart just one more time for me
Before we turn to face reality Don't stop to think
This perfect chance may never come again This is not the end Let me use your ears just for a little while
I've got to find a way to make you smile
listen closely now to every word I say
It's all I have to offer you today Don't say goodbye
Don't say the word until we meet again This is not the end This is not my fault, I'm not responsible
These tiny grooves can only take so much
There's only one more thing I want to say to you
So long for now, be sure to keep in touch This is not the end
This is not the end
This is not the end
