Birds And Bees

Sunrise Avenue

I get the feelin everyones feelin the same
Like somebody somewhere should be callin their name
Prayin in churches or out in the club
Everyones lookin, lookin for loveBirds and bees and songs like these
'Cause we want what we want and its natural, baby
Birds and birds and bees and bees
'Cause we want what we want and its natural, babyIts not a secret, its not a crime
Ive never done this before, well, neither have I, yeah right
So I blow out the candles and Im makin a wish
Come over here babe and give me a kissBirds and bees and songs like these
'Cause we want what we want and its natural, baby
Birds and birds and bees and bees
'Cause we want what we want and its natural, babyAnd its natural, babyI get the feelin everyones feelin the same
You lean in close and you whisper my name
Youre whispering, youre whispering, life is but a dream
And you are so beautiful, you make me wanna screamBirds and bees and songs like these
'Cause we want what we want and its natural, baby
Birds and birds and bees and bees
'Cause we want what we want and its natural, babyAnd its natural, baby
And its natural, baby
