Lovestory

Soma Sonic

Do you know everything about love?
Where it comes from and where it goes?How it pierces your veins and flows in and out of you
How it expands your soul, your heart and life.Look at this little one
You've released a love story, a love storyIt feels so great, it feels so goodAway, awayDo you know everything about love
Look at this little one You've released a love story, a love story, a love story
