

# Angel Fire

dolores o'riordan

Another lonely night in December  
Jaweh, Jaweh, Jaweh  
It is the time of year, people remember  
Jaweh, JawehI can't find a word to say to you  
I can't comprehend, I can't relate to youPlain to see, no flies on me  
Take me higher, angel fire  
Take me where I want to go  
Teach me things I need to knowPlain to see, no flies on me  
Take me higher, angel fire  
Take me where I want to go  
Teach me things I need to know  
I'm knowing this could be our last event  
Jaweh, Jaweh, Jaweh  
I'm knowing I am your youngest descentI don't want to know your pain  
I don't want to play the gamePlain to see, no flies on me  
Take me higher, angel fire  
Take me where I want to go  
Teach me things I need to knowPlain to see, no flies on me  
Take me higher, angel fire  
Take me where I want to go  
Teach me things I need to knowI can't find a word to say to you  
I can't comprehend, I can't relate to you  
Plain to see you're made for me  
Take me higher, angel fire  
Take me where I want to go  
Teach me things I need to knowCan't you see you're made for me?  
Take me higher, angel fire  
Take me where I want to go  
Teach me things I need to knowWho knows? Who knows? Who knows?  
Who knows? Who knows? Who knows?
