

# Dancing in the Headlights

[Dustin Lynch](#)

You can see the dust from the trucks in the sunset  
    Heading out down Lazy Branch Road  
High beams cutting a trail through the hay fields  
    Crossing the creek where the fuzz can't go  
Make a few calls and the girls come running  
    Guess me and the boys have got it going on  
The way they're looking all summertime sexy  
    Can make a party last all night long  
We got the drink drank, we got the tracks cranked  
    We got the bass down low (whoa)  
Girls got their shaker shaking, a buzz in the making  
    They're going out of control (whoa)  
They're getting with it, burning hotter by the minute  
    You know you got the perfect night  
When you got the girls dancing, dancing, dancing in the headlights  
    Bodies moving to the beat of the music  
    Shadows dancing in the top of the trees  
I can see you baby rocking that spotlight  
    Lost in the moment, caught in the beam  
We got the drink drank, we got the tracks cranked  
    We got the bass down low (whoa)  
Girls got their shaker shaking, a buzz in the making  
    They're going out of control (whoa)  
They're getting with it, burning hotter by the minute  
    You know you got the perfect night  
When you got the girls dancing, dancing, dancing in the headlights  
We got the girls dancing, dancing, in the headlights  
    Dancing, dancing, dancing all night  
We got the drink drank, we got the tracks cranked  
    We got the bass down low  
Girls got their shaker shaking, a buzz in the making  
    They're going out of control, (whoa)  
They're getting with it burning hotter by the minute  
    You know you got the perfect night  
When you got the girls dancing, dancing, dancing in the headlights  
    Dancing, dancing, dancing in the headlights
