

Since U Left (feat. Taylor Parks)

Brianna Perry

I've been doing much better,
No doubt about it, noWho you gonna kiss like that? (like that)
Who you gonna miss like that? (like that)
Take a ride around the world, flight trips, don't pack
Me? You lost that,
Cross my heart, f**k you, who's like that?Ahh, since you, since you, since you
Brianna
Aahh
Oooh
Since you, since you, since you
Since you left, oh-oh
Since you, since you, since you
Since you left, oh-oh
OoohI say wanna stay? Who? Ain't the case
Boo, long list n****s that been waiting to replace you
Lie to ya face, but behind your back, these hoes ain't loyal, may I remind you that?
Ã¢Â€ÂˆCause I moved forward,
Do you know how many n****s just been void?
Do you know how many wanna pay the fee for it?
Back on the market, keep missin' me, boy, get on your target (pow!) [Pre-Chorus:]
We ain't together, so, miss it forever,
We had to part, we could've did it together (me and you)
And I know I had to live with the regret (well)
So I had to put you to the left, to the left [Chorus:]
Since you left,
I've been doing much better,
No doubt about it, no
Since you left, (yeah)
I've been feelin' like money, money, money (you see me)
Ooohh
Since you left
Since you, since you, since you
Since you left I put you to the left (left, left)
Since you left, ahh
OoohhLive with the fact you did me wrong forever,
Good girl goes bad and she gone forever
To be honest, I got me, myself and I,
Me, myself and I,
Put this money on the side

A promise gets broken without being held, see!
That's why the b****h stick the top with Channel, see?
That's why b****h can't love these n*****s
Wouldn't be f*****d up if weren't for this n*****s[Pre-Chorus:]
We ain't together, so, miss it forever,
If you played your part, we could've did it together (me and you)
Now you gotta learn to live with regret
So I had to put you to the left, to the left[Chorus:]
Since you left,
I've been doing much better,
No doubt about it, no
Since you left,
I've been feelin' like money, money, money
Ooohh
Since you left,
Since you, since you, since you
Since you left I put you to the left (left, left)
Since you left, ahh
Ooohh Good girls go bad and they gone forever (forever, forever, forever, forever)
Good girls go bad and they gone forever
What's your first class b****h live a n****a in coach?[Pre-Chorus:]
We ain't together, so, miss it forever,
If you played your part, we could've did it together
Now you gotta learn to live with regret
So I had to put you to the left, to the left[Chorus:]
Since you left,
I've been doing much better,
No doubt about it, no
Since you left,
I've been feelin' like money, money, money
Ooohh
Since you left,
Since you, since you, since you
Since you left I put you to the left (left, left)
Since you left, ahh
Ooohh
