## Home Video

I'm getting stupid sitting here  
Waiting for the light to change  
Shadows rearrange

My brain is dull, I'm holding on  
We need to break these walls down  
Need to finish seeing

If I could fly a million miles  
Could not keep me down  
Swim the endless suction  
Just need you around

If I could fly a million miles  
Could not keep me down  
Swim the endless suction  
Just need you around

I'm going crazy stuck in here  
Am I made of bigger things  
A body big as dreams

My voice is empty without you  
Let me sing to you  
All our played out love songs

I feel the size of an empty bed  
How will I find you?  
How will I find you?

I feel the size of an empty bed  
How will I find you?  
How will I find you?

I feel the size of an empty bed  
How will I find you?  
How will I find you?

I feel the size of an empty bed  
How will I find you?

How will I find you?

I feel the size of an empty bed

How will I find you?

How will I find you?

I feel the size of an empty bed

How will I find you?

How will I find you?
