

If Time Permits

[Matthew Sweet](#)

I don't wanna do it over 'cause I've made my case
But I wish that I could live another place Try to make it over but it won't erase
So it looks like I'm still trapped inside this space If time permits me to right my wrong deed
If time permits me to live I could throw a hundred things you did away
If it meant that we could have another day If time permits me to right my wrong deed
If time permits me to live I don't wanna do it over, I don't wanna do it over
But it looks like I'm still trapped inside this space If time permits me to right my wrong deed
If time permits me to live
