

The Sun Never Sets

Cheap Trick

Well, the light certainly shines on you
All the times of the times point to you Everywhere I look
I see your face
It comes to you One, out of love
Two, a little rough
Three is a lot better than these
But you can rattle it
Time standing in line The sun never sets
On a love that shines
The sun never sets
On a love that shines
Sunshine, yeah I'll never find a better day than today
I was blinded by those airless rays Then heaven smiled
When you came my way One, just enough
Two, a little rough
She's a lot better than me
You can't handle it
You better get in line The sun never sets
On a love that shines
The sun never sets
On a love that shines
Sunshine, yeah The sun never sets
On a love that shines
The sun never sets
On a love that shines
The sun never sets
On a love that shines
The sun never sets
On a love that shines
