

# Cold Beer Country

[Toby Keith](#)

So dang hot you want to sit around naked  
Aint rained one drop, aint gonna I reckon  
Lying old weatherman told me the truth  
Hot today, tomorrow and the next day too  
Its cold beer country  
110 in the shade  
Iced tea wont cut it  
And neither will lemonade  
I need a cold Budweiser on a bar stool  
And a jukebox by my dear  
Singing cold beer country  
'Cause its cold beer country round here  
Ive been getting out and getting in it all day long  
Tonight Im going out and getting it on  
Sipping on a long neck working on a buzz  
'Cause that's what everybody does  
Cold beer country  
110 in the shade  
Iced tea wont cut it  
And neither will lemonade  
I need a cold Budweiser on a bar stool  
And a jukebox by my dear  
Singing cold beer country  
'Cause its cold beer country round here  
Here comes my baby  
About as hot as she can be  
Were gonna pop the cap, gonna knock them back  
Nothing better for the July heat  
Than cold beer country  
110 in the shade  
Iced tea wont cut it  
And neither will lemonade  
I need a cold Budweiser on a bar stool  
And a jukebox by my dear  
Singing cold beer country  
'Cause its cold beer country round here  
Yeah, singing cold beer country  
Its cold beer country round here  
Ah yeah
