Fat Snowman

Cable35

You shake it up
You break it outEven if nobody likes to hang around with youYou shake it up
You break it outEverybody is looking at the bright sideEven if nobody likes to hang around with youYou shake it up
You break it outEverybody is looking at the bright sideTake a step aside for mr white and all his crew
Take a step aside for mr whiteYou shake it up
You break it out
You light it up
You burn it down
You mess it up
You beat it out
You smash it up
You break it downEverybody is looking at the bright sideTake a step aside for mr white and all his crew
Take a step aside for mr whiteIt's a total transformation
It's a complete alterationIts alright, but Ill consider this
