

She's A Stallion

Bush

(Hey, hey, hey, hey)

(Hey, hey, hey, hey)

She's a dreamer, she's a dreamer

She's a dreamer, let her dream

She's a dancer, she's a dancer

She's a dancer, let her dance

He's a thinker, he's a thinker

He's a thinker, let him think

I'm a warrior, I'm a warrior

I'm a warrior, don't you worry about me

You set the world on fire

I see the buildings fall

The city is all ablaze

All the madmen came today

All the madmen came today

(Hey, hey, hey, hey)

She's a stallion, she's a stallion

She's a stallion, let her run

She's a savior, she's a savior

Jesus said let her save

He's a madman, he's a madman

He's a madman to drive you mad

He's a guru, he's a guru

He's a guru let him through

You set the world on fire

I see the buildings fall

The city is all ablaze

All the madmen came today

All the madmen came today

We are human (human) after all (human)

We are (we are) human after all

She's a stallion, she's a stallion

She's a stallion let her run

She's a savior, she's a savior
Jesus said let her save
You set the world on fire
I see the buildings fall
The city is all ablaze
All the madmen came today
All the madmen came today

You set the world on fire
I see the building fall
The city is all ablaze
All the madmen came today
All the madmen came today

(Hey, hey, hey, hey)
Got to get you out
Got to get you out
Out of my system

Dead or alive
Dead or alive
Baby you glisten

(Hey, hey, hey, hey)
Got to get you out
Got to get you out
Out of my system
